

In the printing of the 45th edition of the APA Standard of Perfection, 2 sections were inadvertently omitted.

Page 16 **SIZE AND WEIGHT**

#2. Applying Disqualifications: Disqualifying weights for adult specimens shall apply at all times but due allowance should be made for decreased weight in adult birds in the molt during late summer and fall season. Disqualifying weights for young specimens shall not apply until December 1st.

Page 22 **DISQUALIFICATIONS – WEIGHTS**

Weight is a breed characteristic.

Any bird (except Beltsville Small White Turkeys) that deviates more than 20% either up or down from the weight listed for it's breed, sex, and age should be disqualified.

Example – in a bird with a standard weight of 5 pounds, a range of 4 to 6 pounds is within the scope of “the standard weight”. This rule applies to all large fowl, bantams, ducks, geese, Guinea Fowl, and Turkeys (except Beltsville Small Whites).
