Should the applicant be turned down because of his or her character, either before or after he or she has taken the examination and before any license has been granted, his or her application fee shall be returned in full. If the applicant is so denied because of character, he or she may appeal to the Board of Directors for a hearing at the next Annual meeting.

c. Upon receipt of the application, the Secretary shall promptly forward the completed material to the Chairman of the Licensing Committee in order that he or she may check the references. The Chairman of the Licensing Committee reserves the right to contact additional breeders or judges as references.

d. The applicant shall be notified, by the committee chairman, whether he or she has been accepted as a candidate for a general license. The candidate will be required to take part in the apprenticeship program. The apprenticeship program shall take a minimum of (2) two years from the date of the application and must be completed within (3) three years of the application. Decisions of the committee are final. At

least (2) two of the apprenticeship sessions must include waterfowl. Turkey and guinea fowl work is encouraged. The judge or breeder shall mail evaluation forms to the committee chairman. The committee will have the responsibility to balance the candidates' assignments to best cover all aspects of the general license. The candidate must contact the judge they wish to clerk for prior to the start of judging. The judge must be aware the candidate is an apprentice in the judges licensing program and intends this clerking experience to count toward the fulfillment of those requirements.

e. Any American Bantam Association Licensed Judge, or Province of Canada Licensed Judge who meets the application criteria may waive the apprentice program and proceed to the final exams. He or she will be required to take a complete written and showroom exam.

f. Upon completion of the apprenticeship program the committee will determine whether further preparation is needed based on the evaluation of the returned apprentice evaluation forms, or if the applicant will be placed in an exam ready status. This list shall contain the names and addresses of the superintendents and shall be provided a minimum of (8) eight weeks prior to the earliest show on that list. Only the committee will select the show and the examining judge.

g. The committee of licensing judges shall prepare a written examination covering all classes, in considerable detail, listed in the Standard of Perfection. The written exam shall be given in a quiet, closed room. The examining judge must be present at all times. The written exam may be given in the evening. The show room exam shall be given at a good-sized show where all representative classes are present, if possible. Allowance may be made for fewer turkeys or other classes of fowl being exhibited today. The showroom exam will consist of a careful appraisal of the specimen from outside the cage for size, type, color and condition so as not to disturb the bird before being judged. The candidate may be asked to handle birds when prior permission has been obtained from the owner/exhibitor. There should be no bystanders near to hear the questions, by the judge, or the answers, by the candidate. The show room exam should be of several hours duration and cover many different breeds and varieties. The examining judge will give a numerical grade for the showroom exam, but he or she does not grade the written exam. The written exam will be graded by the committee. The showroom and the written exam each count (50%) fifty percent toward the final grade. A passing grade is a minimum of (80) eighty percent on the written exam and (90) ninety percent on the showroom exam.

h. The examining judge shall be an experienced General Licensed judge with at least three (3) years' experience of three (3) or more shows a year. The examining judge shall not be judging the show.

i. The written exam papers go in turn to the two regular members of the committee where each assigns a grade for the exam. It is then sent

to the chairman who also assigns a grade. The chairman averages both tests for the final grade and notifies the Secretary promptly as to whether the candidate passed. The Secretary shall promptly notify the candidate of the results. The new judge must maintain either an annual membership or an Endowment Trust Life membership. Every new judge will be sent a code of ethics form to be signed and returned to the committee chairman.

j. Results of the examination will be given as pass fail only. No scores will be given. In the event of failure, the candidate, after paying a re-examination fee of half of the original exam fee, may retake the examination after a six (6) month period which may include further preparation as per the instructions of the Licensing Committee.

k. A judge may be reprimanded or have his or her license suspended or revoked by the Committee on Licensing Judges for reason of fraud, gross incompetence, conduct embarrassing to the Association, failure to handle non-waterfowl birds (with the exception of diseased or definitely inferior specimens) or failure to pay annual dues, where applicable. Anyone so charged may appeal to the President and Secretary in duplicate letters asking for a hearing before the Board of Directors. If no appeal is made within six months of notification, the action becomes permanent in the case of revocation.

ARTICLE VI - AMERICAN STANDARD OF PERFECTION

Section 1. The American Standard of Perfection was first published as the American Standard of Excellence in February 1874, and has been published continuously since, and known as the American Standard of Perfection since 1894. It shall be the official Standard for judging of Large Chickens, Bantams and Ducks, Geese, Turkeys or any other classification(s) of fowl added at a later date at all official American Poultry Association shows.

a. The Committee on Standards, with the approval of the Board of Directors, shall have authority to correct any apparent mistakes and to rearrange any text or illustrations in the Standard if in its judgment it is in the best interest of the Association, but nothing shall be changed to materially alter the existing shape and color descriptions, except as a result of a General Revision.

b. A general revision of the Standard of Perfection shall be accomplished over a minimum of a two year period, starting when the Board makes the decision to declare a revision. When the decision is made, the Secretary, through the Association quarterly publication and otherwise, shall give notice that a revision is planned and that any proposed changes be sent to the Chairman of the Standard Committee by the end of the first year. Years shall be based on convention dates when possible and enough time shall be allowed for the process to be accomplished in orderly fashion. The committee shall be called the Standard Revision Committee during the years of revision and shall study the reasonable proposals, which

must be in harmony with the format and general terms of the present Standard of Perfection, and make their recommendations. The approval process shall extend over two conventions, an Annual and a Semi-Annual, in either order. At least three months prior to the first convention the committee shall publish in the Association quarterly publication the proposed changes along with their recommendations. Members, individually, or through their breed club, should express their opinions on these proposals to the Director of their district. The proposed changes shall be presented at the Board of Directors meeting for discussion and then at the General Meeting. The Standard Revision Committee shall review and study any suggestions and make revisions if indicated. The committee shall again publish in the Association quarterly newsletter the proposed changes three months prior to the next convention. Again, members should express their opinions to their Director. The proposed changes shall be presented to the Board of Directors meeting where a majority vote shall rule.

c. Breeds, varieties and new classifications of fowl may be admitted to the Standard of Perfection at either the Annual or Semi-Annual convention after prior notice by the Secretary that such has been proposed and requirements for admission have been met.

Section 2. Admission of Breed and Varieties

a. A petition for recognition of any breed or variety of any domestic or foreign breed must be sent to the Secretary, at least one year prior to the first qualifying meet, giving the history of its origin, breeding background, and with facts of an educational nature, all of which shall be preserved in the records of the Association. Included shall be the proposed name of the breed or variety with a standard for shape, color and weight, written in the same style and format as the Standard and included with the petition, with copyright assigned to the American Poultry Association, Inc. The proposed breed must manifest at least three (3) differences from existing standard breeds, this to be determined by the Standard Committee. If a breed or variety had been accepted by the American Bantam Association before January 2007, a qualifying meet will not be required if the Standard Committee is satisfied through show reports from the US and Canadian shows, that 200 or more birds have been shown by at least three (3) exhibitors in the last three (3) years. If the description is in conflict with the description which was approved at a proper qualifying meet of the ABA, then the standard committee shall work with the standard committee of the ABA to remove the conflicts. Petitions for admission of breeds and varieties via this method will not be required to complete b and c of this section. If the breed applying for admission has multiple varieties, proof must accompany the petition that 20 or more birds have been shown in each variety in the past three (3) years by at least three (3) exhibitors. The total number of the birds shown in all the varieties must meet the required 200 total.

b. Affidavits shall be included from not less than five (5) breeders, of 18 years of age or older, stating that they have bred the breed or variety for not less than five years and that it produces not less than 50% of all specimens reasonably true to type, color, size and comb. One of the five breeders will act as the spokesperson for the group and all correspondence will be between him or her and the Standard Committee. All five (5) breeders must be members of the Association before submitting the affidavit and must be members for a minimum of five (5) years consecutively before the first qualifying meet can take place.

c. Certificates showing four (4) or more specimens have been exhibited in each class of cocks, hens, cockerels and pullets in each of the preceding two years at a show officiated by a licensed A.P.A. judge. The Standard Committee shall contact the judge for his or her confidential opinion of the quality and uniformity.

d. A deposit of a sum sufficient to defray the actual cost of placing the text in the Standard shall be received with the petition, which amount shall be returned in full in case of rejection.

e. The petition will then be referred to the Committee on Standards who shall name the two (2) qualifying meets, the first at a regional show and the second at the Annual Convention. The meets are to be at least one (1) year apart and are to be judged by licensed A.P. A. judges that will be approved by the Standard Committee. Such qualifying meets shall consist of not less than twenty-five (25) specimens for a new variety and fifty (50) specimens for a new breed exhibited by at least five(5) exhibitors in all classes of cock, hen, cockerel and pullet. All exhibitors participating in the qualifying meet must be members of the Association at the time of the judging.

f. When satisfied of the breed or variety, the committee may recommend its acceptance, subject to final approval by the Board of Directors, upon which it becomes a recognized breed or variety.

g. No petition for subdivision of any standard variety shall be entertained by the Committee on Standards except Turkeys.

h. The Association recommends that the applicant for a new breed or variety of bantam apply for a joint meet for recognition with the American Bantam Association.

i. If the breed or variety fails to meet the qualifying meet standards another qualifying meet will not be scheduled for a minimum of six (6) months. An additional fee will be required to offset the costs of the added meet.

Section 3. Admission of a new family, sub-family or species of fowl:

a. A petition for admission of a new class of fowl must be sent to the Secretary describing how they fit into the standard-bred poultry industry, giving the history of its origin and if it is still in the wild in large numbers in

some part of the world, to name those area, breeding background facts of an educational nature, all of which shall be preserved in the records of the association.

b. This request for admission of the new species along with the background and facts above must be presented to the entire membership via an opinion poll in two consecutive News and Views, asking for a yes or no vote. After adequate time for response has passed, the Board shall decide if the response has been adequate and positive. If they are not with the number of responses or if the approval rating is barely a yes they may decide to place the issue on the ballot at the next election before making a decision, in which case a majority shall rule.

c. If the Board has given their approval based on the poll of the membership, then the members who presented the petition shall submit a standard for shape, color and weight of the varieties in the new species for which admission is requested and written in the same style and format as the Standard with copyright assigned to the American Poultry Association. Included shall be affidavits as in SECTION 2, b as well as a deposit sufficient to defray the actual cost of placing the new section in the Standard. The money will be refunded if admission is rejected.

d. The petition along with all of the information listed above shall be submitted to the Committee on Standards and the Judges Licensing Committee. These two committees shall name a qualifying meet and determine who is qualified and will judge the meet.

e. When satisfied of the new fowl, the Committee on Standards may recommend acceptance, subject to final approval by the Board of Directors.

f. After the new species has been approved, petitions for admission of additional varieties of this fowl shall follow the procedure in SECTION 2.
